**Great Lakes
Navigation System**

Manistique Harbor, MI

Harbor Features

- Located on the north shore of Lake Michigan, 135 miles northeast of Green Bay, WI and 220 miles north of Milwaukee, WI
- Authorization: River & Harbor Acts of 3 Mar 1905, 2 Mar 1907, 17 May 1950.
- Authorized as a deep draft commercial harbor; however, the harbor use is now primarily recreational.
- Maintained depth is 12 feet.
- Minimal reportable commerce in recent years
- Nearly 3,000 feet of breakwater and pier structures.
- Approximately 4,000 feet of maintained channel.
- Dredged material is placed in upland placement sites as needed.
- Major stakeholders include Manistique Paper, City of Manistique, Michigan DNR, and a variety of charter and sport fishing interests.

Project Needs

- Infrequent maintenance dredging of the harbor is required.
- Navigation structures are primarily maintained by Government floating plant.

Consequences of Not Maintaining the Project

- Significant loss of jobs both locally and regionally.
- Loss of recreational and charter fishing in the area.

Transportation Importance

- The harbor serves as a Harbor of Refuge as well as a variety of sport and charter fishing interests.
- The harbor community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
